

CoverLover™

made in Switzerland

CoverLover™ impresses with its simple design and scores above all with its unmatched viewing time. The elegant magazine rack is perfectly suited to any surroundings. The specially designed lighting concept highlights every cover, setting the stage for an excellent presentation. An integrated sensor for each magazine compartment ensures selected content is played when the corresponding magazine is removed.

Ads on Top

Above the magazine compartments, content is played on a 21.5-inch screen

Screen

21.5 inch (54.7cm) Full High Definition screen with 1920 x 1080-pixel video resolution (16:9 aspect ratio), 24/7 industrial display
